WERE ARRESTED FOR FRAUD. The Judges and Clerks at Smither's Precinct Indicted.

ELECTION CASES BEFORE THE JURY.

A Number of Witnesses Examined and a True Bill Found-Prisoners Bailed for Their Next Appearance.

The election frauds at Smither's precinct, in Henrico county, exposed by The Times, were further confirmed yesterday by the finding of the grand jury of the County Court and the arrest of the judges and clerks of election at that precinct for the crime charged in the

The grandy jury met at 11 o'clock and was in session several hours. Captain Alex. B. Guigon, who has been retained in behalf of the county to conduct the

the grand jury, was absent, but after consultation Mr. William M. McGruder was appointed substitute. Judge Wickham then instructed the jury that the Commonwealth's Atorney would not be permitted to be present in the room where the jury was sitting unless he was summoned as a sworn witness, but that they might consult with him by coming

WM. M. MCGRUDER,

Judge Wickham stated that the Commenwealth had no other presentments to make before the grand jury, and they were discharged. Put Under Arrest.

ptain Guigon, the special attorney for the Commonwealth, then had a confer-ence with Judge Wickham, in which he stated that it had been intimated to him hat one of the defendants was about to leave, to escape the law. How much truth there was for the statement he did not know, but in view of the importance of the case he would like for the defen-

court-room was so great that only in the immediate vicinity of the stood, could hear what was being said aptain Guigon then remarked the account of the character of the e and the public interests involve at it was proper that what he had on the subject should be said alor ad publicly, so that all might hear udge Wickham himself demanded order the court, and Captain Guigon ated aloud his request, as attorney case, to have the defendants taken custody. He said he did it because he finding of such an indictment was a grave matter, and that the rights of the community were seriously involved. That it was a case of fraud in elections and that it was not unknown in the history of this country, though he was glad to say the cases were not frequent, where parties under such indictment had disappeared and gotten away from the result of the cases were not frequent. would be able to give bail, and that he could not resist application for ball in

any reasonable amount.

Judge Wickham said, in view of the statement made by the attorney for their Commonwealth, he would order their hor free before arrest at once and have them before him as quickly as possible so that they might have an opportunity to apply for ball.

He directed the clerk to issue a capias and ordered the sheriff to arrest the parties at once. The witnesses in the case were then recognized to appear before the court again on April 18th.

The Prisoners Bailed.

Mr. James Holleran was communicated with by telephone and was the first of the prisoners to arrive. He was balled to appear at the first day of the next term of the court in the sum of five hunderd dollars, with Sheriff Simon Soloterm of the court in the sum of five hundred dollars, with sheriff Simon Solomon and W. H. Feyeridge as sureties.

At 6 o'clock the remaining four appeared, and Mr. C. V. Meredith, their J. B. Atkinson, Ed. Hogan. Thomas

counsel, asked that they be allowed ball in the same sum as Mr. Holleran.

This was resisted by Captain Guigon. who urged that the court require ball in the sum of \$1,000, on the ground that In the sum of \$1,000, on the ground that the maximum penalty under the law was a fine of \$500 and twelve months in jail. Judge Wickham, however, stated that he thought it would be perhaps unjust to require larger ball than allowed Mr. Holleran. Thereupon the accused were accordingly bailed until the first day of the term, with security in the sum of \$500, with W. H. Brauer, J. C. Mitchell, and others as surety.

Mitchell, and others, as surety. The Indictment.

The indictment, purged of a number of legal repetitions, reads as follows:

A Yankee Outdone.

A New York boys' clothing manufacturing firm, who were about to dissolve partnership, and wanted to turn their stock into cash for distribution, tried to dispose of a portion of them in Bichmond, remarking they were willing to lose a considerable sum to make a sale, and a still greater loss if they could find anyone who could handle the entire stock. Their surprise can be imagined when their offer was taken up by a Richmond firm, and in a letter accompanying the bill of purchase they acknowledge the corn, and the enterprise of this Richmond firm can be seen, as the letter is reproduced by photography in the advertisement of Meyer's dry-goods store of to-day's paper.

Corn did not bubble over with excitement to-day. Like wheat, the trade was of a holiday character. What business was transacted did not carry with it any significance. The opening to-day was easier, with wheat, and a subsequent reaction was due to the advance in the market. May ranged between 374cc, and 274cc, and 254cc, closing igc, under Thursday at 374cc.
Oats showed very little activity. At the close a slight loss from Thursday was recorded in the May price.
Provisions opened easy. A general disposition to realize was apparent, and the local sentiment was for the most part bearish. The only firmness in the list was lard. Shorts in this article covered their contracts quite freely. A steady hog market furnished no support to product. At the close May pork netted a loss of 10c, and May ribs 74cc. HEVENUE OFFICERS SEIZE A BIG LOT OF GOODS AT FATETTEVILLE

confe ra Coalition with the Republicans... What Butler Save.

RALEIGH, N. C., March 24.-Special .-Three mules, a wagon, and two hundred gallons of whisky were yesterday seized at Fayetteville for alleged violation of revenue laws by their owner.

Statesville early Friday morning had a four-thousand-dollar fire. There was two thousand dollars' of insurance on the Lee Williams, a negro boy eleven years

old, yesterday had his body severed in half at Charlotte while riding on the bumper of a shifting engine. In attempting to get off his perilous seat he slipped and fell underneath the moving locemo-· Captain John Igelstroem, of Winston,

Rev. Dr. W. T. Bowman, paster of the Lutheran church at Charlotte, has accepted an invitation to deliver the bacca-

laureate sermon at Roanoke College, Salem, Va., June 10th. Colonel Crowder, an eccentric charac-ter in Cleveland county, recently made two attempts to commit suicide. The first time he endeavored to wind up his career, with a razor, and the next day he used a pocket-knife. Each time the weapon was taken away, but not until ugly gashes had been made.

Plans of the Populists.

The Populists in this State are beginning to organize their forces, and are working hard. Clubs are being organized, mass-meetings are being held, and com-mittees appointed, and preparations for a thorough campaign are being made generally. They are confident of victory. Marion Butler, in the last issue of his paper, declares that the Populists can give the Demograts and Republicans combined a pretty tough fight. And yet it is a significant fact that he and the other leaders are doing all in their power t for the sake of the spoils of office at the

coming election.
Since Jeter C. Pritchard's formal announcement in a letter to the Republican organ at Asheville, that he would not be a candidate for Congress from that be a candidate for Congress from that district, and the consequent endorsement of Richmond Pearson, as the coalition candidate, it is generally believed here that Prichard was moved entirely by Pear-son by a promise of support for United States Senator in case two senators had to be elected. The arrangement is that Butler (Pop.), from the East, and Prich-ard (Rep.), from the West, shall be the candidates on the coalition ticket and candidates on the coalition ticket, and thus catch all the votes of both these parties for members of the Legislature. Pearson is to spend his money freely, not Legislature in his district. It will be re

ror many years there has peen a grad-ually increasing opposition on the part of the denominational colleges to the annual State appropriation to the University. When the question of appropriation was before the Legislature of 1893 the oppo-sition to it was very strong, and presi-dents of all the denominational colleges in the State went before the committee. that the money was being used to break down the private and denominational instatutions. Since then the matter has not been allowed to rest by the friend of these institutions, and now it seems more than probable that it will be made an issue in the selection of candidates for the Legislature.

A Romantic Wedding.

A few days ago a very romantic marriage took place at Lexington, this State. The contracting parties were Miss Mattie Cutting, of that place, and Dr. D. J. Driver, of Little Bock, Ark. The groom had never seen his bride until he came to marry her. About two years ago a to marry her. About two years ago a young lady from Lexington had married a man from Little Rock, and when she went to her new home she carried a photograph of Miss Cutting. Dr. Driver saw the picture and was smitten with the tender passion. A correspondence was opened up and continued until it culminated in matrimony.

Union's Embryopic Volcano.

It is said that there is an extinct em-bryonic volcaine in Union county. It is a high bluff at the top of which is a basin containing a lava-like formation and showing clearly that this was at one time a crater. Old people in the neighbor-hood say that about fifty years ago blue lights could occupionally be used at night hood say that about fifty years ago blue lights could occasionally be seen at night on the bluff. These lights, which were in all probability caused by escaping gases, were called "mine blows" by the people of the neighborhood, and were thought to be indicative of gold veins. From all portions of the State come good reports of the grain crop. Wheat is unusually fine for this time of the year, and the prospects for an abundant is inusually line for this time of the year, and the prospects for an abundant harvest were never better. The crop, however, is in a condition to suffer great damage if there should come a nipping
